

# SRC

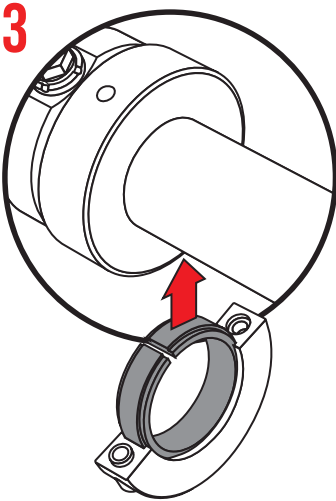

## INSTALLATION INSTRUCTIONS

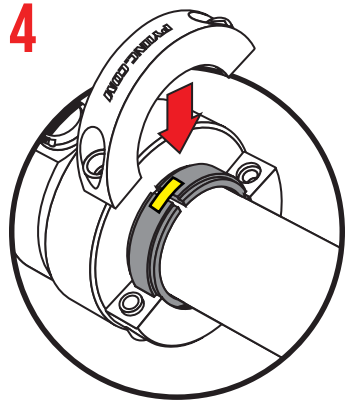

Pre-install the nuts on both collars by using the bolt to pull the nut into place.

Insert the rubber strip into the collar.

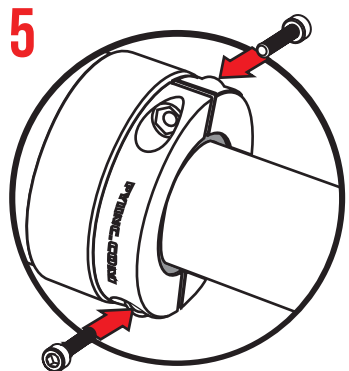

Install the rubber strip and collar assembly around the propeller shaft.

Apply tape to the ends of the rubber strip to hold it in place. Install the other half of the collar.

### HARDWARE

- M6 x 1 x 30mm - 2qty
- M6 Nyloc Nut - 2qty

Tighten the assembly (alternating sides, back and forth) with the provided two bolts. *Snug, do not over tighten.*
